beyond its canonical texts artworks and locations and explores what being modern meant to people in their daily lives rather than shifting the loci of modernity from paris or london to madrid this book decentres the concept and explains the modern experience as part of a more fluid global phenomenon meanings of the modern were not only dictated by linguistic authorities and urban technocrats they were discussed lived and constructed on a daily basis cultural actors and audiences displayed an acute awareness of what being modern entailed and explored the links between the local and the global two concepts and contexts that were being conceived and perceived as inseparable
